

Publications (12/2015)

- Yates MJ, Yap V, Nicholls MER. (in preparation). Visual prior entry assessed using simultaneity judgements.
- Kane A, Yates MJ, Ma-Wyatt A. (in preparation). Perceptual latencies for chromatic versus achromatic stimuli.
- Yates MJ, Vicario CM, Loetscher T, Nicholls MER. (in preparation). Prismatic lenses influence number choices in a random number generation task.
- Yates MJ, Voigt K, Loetscher T, Ma-Wyatt A, Nicholls MER. (in preparation) Eye movements shape numerical cognition.
- Yates MJ, Nemeš FJ, Loetscher T, Ma-Wyatt A, Nicholls MER. (in preparation). Numerosity is represented spatially: evidence from a SNARC task.
- Hughes DM, Yates MJ, Morton EE, Smillie LD. (submitted). Relative frontal cortical activity predicts effort expenditure for reward.
- Vicario CM, Yates MJ, Nicholls MER. Shared deficits in space, time and quantity processing in childhood genetic disorders. *Frontiers in Psychology* 2013; **4**(43): 1-3.
- Thornton T, Loetscher T, Yates MJ, Nicholls MER. The highs and lows of the interaction between word meaning and space. *Journal of Experimental Psychology: Human Perception & Performance* 2013; **39**(4): 964-973.
- Yates MJ, Loetscher T, Nicholls MER. A generalized magnitude system for space, time and quantity? A cautionary note. *Journal of Vision* 2012; **12**(7): 1-7.
- Nicholls ME, Thomas NA, Loetscher T, Wignall S, Yates MJ, Forte JD, Spence C. The relationship between vertical stimulation and horizontal attentional asymmetries. *Quarterly Journal of Experimental Psychology* 2012; **65**(12): 2384-2396.
- Yates MJ. Time and number sense develop in tandem? *Frontiers in Integrative Neuroscience* 2012; **6**(12): 1-2.
- Yates MJ, Nicholls MER. Somatosensory prior entry assessed with temporal order judgments and simultaneity judgments. *Attention, Perception, & Psychophysics* 2011; **73**(5): 1586-1603.
- Nicholls MER, Forte JD, Loetscher T, Orr CA, Yates MJ, Bradshaw JL. Near, yet so far: The effect of pictorial cues on spatial attention. *Brain and Cognition* 2011; **76**(3): 349-352.
- Nicholls MER, Liu M, Loetscher T, Yates MJ. The importance of response-type to the relationship between temporal order and numerical magnitude. *Attention, Perception, & Psychophysics* 2011; **73**(5): 1604-1613.
- Yates MJ, Nicholls MER. Somatosensory prior entry. *Attention, Perception, & Psychophysics* 2009; **71**(4): 847-859.
- Nicholls MER, Orr CA, Yates MJ, Loftus AM. A new means of measuring index/ring finger (2D:4D) ratio and its association with gender and hand preference. *Laterality* 2008; **13**(1): 71-91.
- Nicholls ME, Thomas NA, Loetscher T, Wignall S, Yates MJ, Forte JD, Spence, C. (in press). The relationship between vertical stimulation and horizontal attentional asymmetries. *Quarterly Journal of Experimental Psychology*.
- Yates MJ. Time and number sense develop in tandem? *Frontiers in Integrative Neuroscience* 2012; **6**(12): 1-2.
