

## ROAD MAP

Below we have put together a road map for you to start your journey on maximizing your graduate career outcome and give you a head start on achieving your future goals.

### Career support at The University of Melbourne

- **Graduate Research professional development and training**  
The University of Melbourne offers a comprehensive suite of researcher professional development programs and research training opportunities to put you on the right path to completing your degree, and prepare you for a job in any field.  
A calendar of all upcoming centrally organised events is maintained here:  
<http://gradresearch.unimelb.edu.au/developing-my-skills/development-and-training>
- **Graduate Research Hub Skills Development**  
This Hub has guides for all current graduate researchers, with resources and information to get you from orientation through to graduation:  
<http://gradresearch.unimelb.edu.au/#skills-development>
- **Research Platform**  
Research Platform Services are responsible for research specific infrastructure. We provide platform access to researchers, expertise and education to research communities, and access to discipline specific tools and training (such as workshops in R, MATLAB and LaTeX).  
<https://research.unimelb.edu.au/infrastructure/research-platform-services>
- **Pick It Up Online**  
Here you can find Soft Skills training online:  
<http://studentit.unimelb.edu.au/goodtoknow/pickitup>
- **Developing my skills**  
The two main skill sets that you should aim to develop while studying at university are:  
Professional or technical skills: specific skills required by your field of interest, acquired through study and related work experience.  
Employability skills: transferable skills common to all work roles and workplaces, acquired through study and work experience, but also through a range of work and other life experiences. Here you can find activities, workshops and more to work on both:  
<https://careers.unimelb.edu.au/students/planning-my-career/developing-my-skills>

- **Career preparation resources**  
Get a head start on your future employment options by developing your skills and experience while you study. Find information on work experience, future planning, entering the workforce and understanding the job market:  
<http://careers.unimelb.edu.au/>
- **The Melbourne Centre for the Study of Higher Education**  
The Melbourne CSHE conducts research and professional development in the fields of higher education teaching and learning, research, engagement and leadership:  
<http://melbourne-cshe.unimelb.edu.au/study>
- **Researcher@Library program for graduate researchers and academics**  
The University Library provides training and information sessions to help graduate researchers develop their library research skills and digital capabilities. Workshop topics range from database searching and managing references, to publishing strategically and tracking your research impact.  
<https://library.unimelb.edu.au/services/workshops-and-tours/researcher-@library-training-for-graduate-students-and-researchers>
- **Academic skills support**  
Enabling students to realise their full academic potential and achieve excellence  
Statistics Consulting Centre: They teach how to prepare a poster/abstract  
Career service helping unit: Help with for example CV and mock interviews:
