Psychology in perspective

A highly robust foundation for a great many (if not all) careers, making use of.....

- core understandings about human behaviour
- skills in quantitative reasoning and research methodology
- skills in using ‘evidence’ to inform understanding/decisions
- general rigor in analysis and problem-solving

CAREERS &
EMPLOYMENT

www.careers.unimelb.edu.au

Thinking about what would suit you

- What sector is of most interest? ie what sorts of issues? what sorts of clients? for what purpose? eg business, health, education, community, personal development, protective services....
- What type of work activity would suit you? eg service delivery/face-to-face, technical, big picture roles such as policy, research, promotional/advocacy.....

Employment

Most careers require graduate or further study (trend to professional preparation at graduate level); however, there are employment opportunities post-Bachelor degree:

- Jobs in general job market
- Graduate Employment Programs

NOTE: While there are job types typically associated with Psychology, there may be other possibilities for individuals – depending on interests, skills and experiences

CAREERS &
EMPLOYMENT

www.careers.unimelb.edu.au

Jobs in the general job market - Psychology related

- market and applied social research - consultancies
- human resources – particularly in recruitment
- program, policy and research support in community organisations (Note – casework roles require training which includes face-to-face work and/or significant voluntary experience)
- customer service in human services agencies eg TAC, NGOs)
- student services in higher education eg disability support, student advising
- general management (via management trainee programs)
- research assistant roles (though more likely with 4th year)

Recent positions acquired by Psych majors – examples

- Human Resources Consultant (*local government*)
- Management Trainee (*bank*)
- Research Assistant (*hospital*)
- Marketing Assistant (*market research company*)
- Project Assistant (*mental health support organisation*)
- Integration Aide (*regional college*)

Recent positions acquired by Psych majors – more examples

- Sleep Scientist (*hospital*)
- Tutor (*residential college*)
- Science Demonstrator (*high school*)
- Weight Loss Consultant (*private business*)
- Project Coordinator (*youth mental health support organisation*)
- Welfare Officer (*community organisation*)

Graduate Employment Programs

- Positions for new grads which include significant training and development; typically for 12-18 months
- Generally offered by large commercial organisations and government
- Tend to recruit students early in final year to commence following January – but recent graduates can apply

Graduate Employment Programs

Organisations recruiting Psychology majors:

- Government Departments – State and Commonwealth – for careers in policy and public sector management
- Commercial organisations specifically targeting Psychology - roles in HR with large corporates eg Qantas, Shell, Telstra, or market and social research with consultancies eg Forethought Research
- Commercial organisations open to all grads - for general business roles and consulting eg banks, management consulting firms
