

### Supervision Arrangements

Please read through the list of available fourth year projects which will be available from 5pm Wednesday 20 December via this link: <http://psychologicalsciences.unimelb.edu.au/study/fourth-year-honours/4th-year-projects-2018>. Please complete the project preference form available in the link above by the deadline of **5pm 12 January 2018**. You will also receive an email reminder in the first week of January.

Part time students complete their course work in their first year and the Research Project in their second year.

### Course Structure

The course structure for all the fourth year programs are the same and is as follows:

#### Compulsory Subjects

Subject Code	Name	Semester	Points
PSYC40005	Advanced Design and Data Analysis	1	12.5 pts
PSYC40006	Theories and Professional Practice	1	12.5 pts
PSYC40010	Research Project	Year Long	50 pts

#### Elective Subjects

You need to select two semester 2 electives from this list

PSYC40001	Current Topics in Developmental Psychology	2	12.5 pts
PSYC40002	Current Topics in Social Psychology	July	12.5 pts
PSYC40004	Current Topics in Cognitive Neuroscience	July	12.5 pts
PSYC40012	Models of Psychological Processes	2	12.5pts

All subject selections are completed on-line for 2018 enrolments. Please note that there are no scheduled classes for the Research Project.

### Orientation

Orientation for the Fourth Year program will be held on **Thursday 22 February 2018** from 9am in the Latham Theatre, [Redmond Barry Building](#), University of Melbourne. **Attendance is compulsory.** Late arrivals will not be permitted to commence the course. 2018 classes for new students will commence on Friday 23 February.

### Personal Timetable

The University has a class registration program that allows you to organise your personal timetable. The class registration program for semester 1 opens on **Tuesday 23th January 2018** at 10.00am. Further details will be posted in the Notice section of the Student Portal closer to the date. Please note that you need to have completed your enrolment in full to gain access to the Student Portal.

### PSYC40005 Advanced Design and Data Analysis intensive day

Please note that the first class for this compulsory subject will be an intensive day held on Friday, 23rd February 2017 (Orientation Week), from 8.00am to 4.15pm. There will be lectures and computer laboratory classes on this day, as well as a break for lunch. The day commences with a lecture at 8.00am in the Latham Theatre. All students must attend this day. This day session will replace two weeks of lectures during the semester. Details of the first assignment for the subject will be provided on the day.

### Manual

A course manual will be available on the psychology web page when classes start.

**Email for Enquiries**

If you have any enquiries, feel free to send these through via email to [fourthyear-psych@unimelb.edu.au](mailto:fourthyear-psych@unimelb.edu.au)
